Discussion

- This Database is an attempt to get people thinking and learning.
- It will cover questions I have always had, questions customers have and questions from Contributors.
- The Database is designed to be Question orientated, all answers, reference and comments can be seen from the Questions Page, you might need to scroll down and pick the tab of your choice.
- The Database design allows for Contributors to add/edit their own questions, answers, references or comments to any question.
- Visitors can add/edit their own suggestions in the suggestions table.
- When using this Presentation I suggest you have the Questions Database open so you can move around looking at the actual pages while looking at this document as a reference.
- Weblink to [Questions Database](#).

Database Users

- People that want to use the Questions Database have a number of choices, as to how involved they want to be.
- **Guest** (Anonymous) is for those who just want to take a peek at the data.
- **Visitor** requires the user to sign up and get approved. They will be able to view all questions and add suggestions to the Database.
- **Contributor** requires the user to sign up and approval. They will be able to enter new questions, answers, references and comments. They will be able to edit all data that they have entered.
- **Admin** requires sign up and is for those who want to get completely involved. This would allow all the above and the ability to Delete any input.

If you see this page it is probably the first time you have come to the database and it gives you some choices.

1. You can Sign Up to be a Visitor, Contributor or Administrator.
2. You can click on the Link, Continue browsing as a guest.

This second choice will take you to the main page of the application.

You do not have to sign up to view the database, you will not be able to add any questions or provide suggestions.

If you have already Signed Up and been Approved then you can just enter your Username and Password and click the Sign In button.

Main Page

This page allows the user to select which Questions or Special Questions table they want to view.

The user can also select the Answers or Support bars to see more tables, but the database is designed to be used from the Questions and Special Questions Tables.

Questions Table View

The screenshot shows a web application interface for viewing a table of questions. At the top left, there is a navigation menu with 'MyQuestions' (home icon), 'Questions', 'Answers', and 'Support'. A 'Sign In' button is located at the top right. Below the navigation is a search bar labeled 'Quick Search'. Underneath the search bar are buttons for 'Print Preview', 'Save CSV', 'Filter', and 'Show All'. The main content is a table with columns: ID, Date Entered, Group, Contributor, The Question, and Image. The table contains 12 rows of data. At the bottom of the table, there is a 'Go to page:' dropdown menu and a 'Next' button. The footer of the page says 'Powered by BigProf AppGini 22.14'.

ID	Date Entered	Group	Contributor	The Question	Image
3	02/07/2023	Math	RCA, Richard C Anderson	The United States uses the decimal numbering system (base 10). My question is what are the characters, symbols or numbers in this numbering system?	
4	02/01/2023	Math	RCA, Richard C Anderson	What do F, 15, 17 and 1111 have in common?	
5	01/07/2023	Nature	RCA, Richard C Anderson	In 15 minutes how many penguins could an adult male Polar Bear eat?	
6	01/14/2023	Geography	RCA, Richard C Anderson	Why when looking at a non Mercator (flat paper map not via Google Maps) flat map is the shortest distance from one place to another a curved line and not a straight line?	
7	01/17/2023	Science	RCA, Richard C Anderson	If all the ice at the north pole ice cap melted how much would the sea level rise?	
8	01/02/2023	Science	RCA, Richard C Anderson	What percent of the atmosphere is CO2 (carbon dioxide)?	
9	02/15/2023	Science	RCA, Richard C Anderson	When a submarine is running submerged how does it surface and stay there?	
10	01/19/2023	Warfare	RCA, Richard C Anderson	When I watch movies and documentary's I see the air plane's roll over and dive to target. Seldom do they just nose over and dive. My Question is Why?	
11	02/20/2023	Science	RCA, Richard C Anderson	How many ice ages have we had?	
12	02/10/2023	Science	RCA, Richard C Anderson	How and where do we get an accurate measurement of sea level?	

This is one of the pages a user will get to know well. By Left Clicking on one of the Data Fields (records or links) the user will be taken to that records Detail View.

By Left Clicking on the MyQuestions Menu (Home Icon) the user will be returned to the Main Data Page.

There are Pull Down menu buttons for Questions, Answers and Support tables. The Questions menu pull down also has a link to the Ratsupport Home Page.

The user can quick search for records by using the Quick Search field, usually it only takes part of the search term to find what you are looking for.

There are also buttons for Print Preview, Save CSV, Filter (Find Specific Data) and Show All.

The user can select the page they want or Left Click on the Next or Previous buttons to get to another page of records.

If the user Left Clicks on the Menu Icon to the right of the page, a Data Choice window will open giving the user the ability to select which data items they want to see while using this application.

All the Guest Tables

These are all the tables that a Guest can see.

Guests can only View Data, they can not make any changes.

The application is designed for the user to only use the Questions and Special Questions Tables, but the data tables are there to see if one wants to.

The user can expand the view by Left Clicking on the appropriate bars (Questions, Answers and Support).

The Filter allows the user to select certain data to see. By using the pull down fields the user can select specific or groups of records to view.

Some of the Groups of Questions are, General Knowledge, Science, Just Don't Get It, History and many more.

As the database grows the Question Groups will get larger.

Data can also be Filtered by the Contributor or Group and Contributor can be selected.

The user can also enter part of a question into the The Question Field and then press Apply Filter and see all records that apply to the selected Filter.
