

## RAT Support News Letter

Date: 11/01/2012

News Letter #20 November 2012

This news letter is intended to help the people that I enjoy doing business with and anyone else that happens upon this news letter.

If you don't want to get this news letter on a monthly basis then feel free to email me at [support@ratsupport.com](mailto:support@ratsupport.com) and tell me you don't want to be on the list. I will remove you from the news letter list .

1. Thanks for all the wonderful words about my News Letter, I will keep publishing it until I can not find something to say.
2. First the fun stuff, I am learning to TWITTER, it is different and I think very interesting for people with an interest or a business and you want to keep people informed. If you have questions about what I have learned then feel free to contact me. If you want to follow my TWITTER account then you can use @Ratsupport. I will make an attempt to post something at least once a day. If you want to follow via my web site then you can select the follow button in the Today's Tips section of most of my web pages: <http://bit.ly/PJOtTK>, notice that I am using a bitly short link that is used in TWITTER to keep the character count low, TWITTER only allows 140 characters per tweet.
3. I have been working on the Ukiah Adult School Web Site and have learned a number of wonderful things that will be showing up on my RATSsupport Web Site. Keep an eye out and see if you can tell the change.
4. I now have more than one client using Ubuntu Linux and they are doing well with it. If you want to learn how to do computers and software without the big \$\$\$, then I suggest you take an old computer and install Ubuntu Linux on it and get started. You will have a Firefox browser, Libre Office to do your MS documents and more, and there are wonderful games and many other offerings that you might like. If you want information on this subject please send me a note via Contact US : <http://www.ratsupport.com/contact.html> .
5. The other day I ran across this web page by CNET.COM that I found full of information and thought I would share with you. <http://www.cnet.com/internet-security/> I found the information on Mobile phones interesting and about Bank security etc.
6. Well I have just about finished this News Letter but thought I would leave you with something to think about and have some fun also. Go to this link and see if anything looks good to you and get back to me about your experience. <http://www.squidoo.com/funways> .
7. As always , please don't forget to do your updates and backups.
